MAINTENANCE REQUIREMENTS

In order to keep Your Contract, in force during its term, You must maintain the Watercraft in accordance with published scheduled maintenance requirements. If Your failure to follow the published scheduled maintenance requirements causes a Mechanical Breakdown, You may be denied coverage. Before any repair is authorized, We may require You to furnish Us with proof that You have properly maintained the Watercraft as required. You are responsible for retaining the receipts identifying the Watercraft, showing dates, engine hours, services performed, year make, model and watercraft identification number and providing them to Us in the event of a claim. YOUR RESPONSIBILITIES AND HOW TO MAKE A CLAIM

You are responsible for making sure the oil warning light/gauge/alarm and the temperature warning light/gauge/alarm are functioning before operating Your Watercraft (if applicable). You are required to safely stop the Watercraft and shut down the engine immediately when either of these lights/gauges/alarms indicates a problem. Take all reasonable precautions to protect the Watercraft from further damage in order to prevent additional Costs or repairs. Your failure to do so will cause the additional Cost to be paid by You and/or it may result in the complete denial of the claim.

1. Return the Watercraft to any Selling Dealer or Authorized Repair Facility in the continental United States or Canada during normal service department hours. If the Mechanical Breakdown is not covered by this Contract, the costs incurred for disassembly and/or diagnostic work are Your responsibility and expense;

3. The service manager must obtain Your authorization to inspect and/or tear down Your Watercraft in order to determine the cause of failure and Cost of the repair;

If a Mechanical Breakdown occurs when the Administrator's office is closed, You may follow these claims procedures without prior authorization. However, You or the Authorized Repair Facility MUST call the Administrator during the next business day. Failure to call in and report the claim on the next business day may result in non-payment. Unapproved mail-in claims may be denied;
5. Provide complete cooperation in the investigation of any Mechanical Breakdown;
6. Provide proof of maintenance upon request;
7. Permit inspection of the Approved Watercraft by Us **BEFORE** repairs are performed, if requested;
8. When You pick up Your Watercraft, review the repair order with the service manager;
9. Pay the Deductible and any other non-covered expenses, if applicable;
10. Payment for covered Mechanical Breakdowns will be made either to You or the Authorized Repair Facility in accordance with the Contract provisions within thirty (30) days after receipt of the repair order;

1. **CHANGES:** No changes may be made to this Contract unless approved by Us in writing. None of Our representatives have the authority to change or waive any provisions to this Contract.
2. **REPRESENTATIONS:** By acceptance of this Contract, You agree that statements in this Contract made by You are Your representations and agreements and that this Contract is issued in reliance upon the truths of those statements.

4. **PREVENT FURTHER DAMAGE:** In the event of Mechanical Breakdown of the Watercraft, any operation of the Watercraft that results in further damage relation to the original Mechanical Breakdown will be considered Your failure to protect the Watercraft and will not be covered under this Contract.

WHAT TO DO IN THE EVENT OF A FAILURE

The amount authorized is the maximum that will be paid. Any additional amounts need prior approval.
4. In some cases, You may be required to authorize the repair facility to inspect or tear down Your Watercraft to determine the cause and cost of the repair. You will be responsible for these charges if the Failure is not covered by this Contract. The Administrator reserves the right to require an inspection of Your Watercraft prior to any repair being performed. The Administrator reserves the right to move Your covered Watercraft to another repair facility.

REPAIR FACILITY GUIDELINES FOR HANDLING CLAIMS Follow these steps when handling a claim:

1. Advise Contract Holder that evaluation of a failure does not mean that the repair is covered under this Contract. All covered repairs must receive prior authorization from the Administrator.
2. Have Contract Holder authorize inspection/tear down of the Watercraft to determine cause of failure cost to repair. Save all components, including fluids and filters, should Administrator require outside inspection. Notify Contract Holder that cost of tear down will not be paid if it is determined that the failure is not covered under this Contract.
3. Determine the cause of failure, correction required and cost of the repair(s).
4. Contact the Administrator's Claims Department at 888-686-2225 to obtain authorization to proceed with the claim. Be prepared with the following information when placing the call: a) Customer's Name and Contract Number. b) Cause of failure and recommended correction. c) Cost of repair(s).
5. A Claims Advisor will verify coverage and do one of the following: a) Approve Claim - If approved, the authorization number must be recorded on the repair order. The authorized amount is the maximum that will be paid. Additional amounts must receive prior approval. b) Require Additional Evaluation, Inspection or Tear Down - Administrator may require an inspection prior to repair being completed. If a tear down is required to determine cause of failure, Contract Holder must authorize same. c) Notify Contract Holder that if the repair is not covered, then Contract Holder will be responsible for cost of the tear down. Repair facility should save all components requiring inspection, including fluids and filters. The Claims Advisor will arrange for the inspection. If inspection is not made within Forty-Eight (48) hours, contact the Claims Advisor. d) Deny the claim and provide the reason for the denial.
6. Review the Administrator's findings with the Contract Holder as well as what will be covered by the Contract and what portion of the repairs, if any, will not be covered.
7. Obtain Contract Holder's authorization to complete repairs. All repair orders must have customer's signature to qualify for payment.
